PERSONAL STATEMENT

I am a passionate MERN Stack Developer with expertise in building scalable, high-performance web applications. Proficient in MongoDB, Express.js, React.js, and Node.js, I specialize in developing responsive, user-friendly interfaces and robust back-end solutions. With a strong understanding of front-end technologies like JavaScript, CSS, and Bootstrap, I ensure seamless integration between the UI and back-end services. I enjoy solving complex problems, optimizing performance, and delivering efficient, modern web solutions.

EDUCATION

BS Computer Science

Bacha Khan University, Charsadda | 2019-2023 | CGPA: 2.9

F.Sc (Pre-Engineering)

Shah Public School & College, Kanju Swat | 2017–2019 | 57%

SSC (Matriculation)

Allama Iqbal High School, Kanju Swat | 2015–2017 | 67%

IOB EXPERIENCE

Full Stack Developer | MindGigs IT | Dec 2023 - Present

P KP IT Park, Board Bazar, Peshawar, Pakistan

- Designed and developed scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Built and optimized responsive, user-friendly interfaces while ensuring seamless frontend-backend integration.

TECHNICAL SKILLS

Backend: Node.js, Express.js, Mongoose, RESTful APIs

Frontend: HTML5, CSS, JavaScript, React, Bootstrap, Redux, RTK Query, React Router DOM

Database: MongoDB

Version Control: Git, GitHub

API Testing: Postman

Languages: English (Fluent), Urdu (Native), Pashto (Native)

PROJECTS

1. Tailor Management System

6 GitHub Link

Project Overview:

Developed a full-stack web application to automate operations for tailoring businesses, including customer orders, worker details, expenses, measurements, payments, and reports.

Key Features:

- Customer, worker, and expense management.
- Order tracking, payment management, and reporting.
- Secure login and role-based access control.

Technologies Used:

- Frontend: React, Redux Toolkit, RTK Query, Bootstrap, CSS
- Backend: Node.js, Express.js, MongoDB
- Tools: Axios, Formik, Yup, React Toastify

Achievements:

- Delivered a scalable and maintainable application.
- Improved operational efficiency for tailoring businesses.
- Enhanced user experience with a responsive UI.

2. POS (Point of Sale) Management System

GitHub Link

Project Overview:

Developed a full-stack POS system to automate inventory tracking, sales, purchases, supplier and customer management, and financial reporting.

Key Features:

- Sales, purchase, and product management.
- Supplier and customer ledgers, expense tracking, and financial reporting.
- Secure login and role-based access control.

Technologies Used:

- Frontend: React, Redux Toolkit, RTK Query, Bootstrap, CSS
- Backend: Node.js, Express.js, MongoDB
- Tools: Axios, Formik, Yup, React Toastify

Achievements:

- Delivered a scalable and maintainable application.
- Automated inventory and financial management processes.
- Enhanced user experience with a responsive UI.

3. YouTube Clone

Project Overview:

Developed a YouTube clone with video playback, category-wise filtering, and a responsive sidebar menu.

Key Features:

- Integrated YouTube Data API for dynamic video fetching.
- Implemented add-to-cart functionality and dynamic routing.
- Responsive design with Bootstrap and CSS.

Technologies Used:

- Frontend: React, Bootstrap, CSS
- API Integration: Axios
- Routing: React Router DOM

Achievements:

- Built a scalable and maintainable YouTube clone.
- Demonstrated proficiency in API integration and responsive design.

4. Personal Portfolio Website

GitHub Link

Project Overview:

Designed and developed a responsive portfolio website to showcase my skills, projects, and professional experience.

Key Features:

- Responsive design with Bootstrap and CSS.
- Interactive UI with smooth animations.
- Project showcase and contact form with validation.

Technologies Used:

- Frontend: React, Bootstrap, CSS
- Routing: React Router DOM

Achievements:

Created a professional and visually appealing portfolio.

• Showcased my skills and projects effectively.

ACHIEVEMENTS

- Delivered multiple full-stack projects using the MERN stack.
- Improved operational efficiency for businesses through automation.
- Enhanced user experience with responsive and intuitive UIs.
- Demonstrated problem-solving skills in state management, API integration, and performance optimization.

RELEVANCE TO JOB ROLE

- Proficient in React, Redux, Node.js, and MongoDB.
- Experienced in building RESTful APIs and managing databases.
- Skilled in creating responsive and user-friendly interfaces.
- Strong problem-solving and self-learning abilities.
